SUMMARY

1.5+ years of experience as a Frontend developer building mid to large scale projects with React, Next JS, Typescript and other relevant technologies. Knowledgeable about Agile development approaches and has experience working with cross-functional teams. Strong analytical and problem-solving abilities, and a passion for writing clear, effective code.

WORK EXPERIENCE

- Junior Frontend Developer, Ayata Incorporation** 
- 05/2024 – Current
Kathmandu, Nepal
- Developed core frontend features for Avyaas, an e-learning platform, including video playback, PDF viewing, live classes with Zoom, and online exams.
 - Integrated eSewa and Khalti payment gateways for seamless course purchases and subscription handling.
 - Built responsive UI for AMS (Attendance Management System) to track employee attendance, payroll, and leave requests with real-time notifications via WebSockets.
 - Implemented live chat and interactive dashboards for internal communication and HR operations.
 - Contributed to Zunun, a full-fledged school management system, enabling course, assignment, and resource management for teachers and students.
 - Designed and developed the billing interface for CEDEP's internal billing system, handling invoice tracking and payment summaries.
- Intern - Frontend Developer, Ayata Incorporation** 
- 02/2024 – 04/2024
Kathmandu, Nepal
- Gained hands-on experience in frontend development during an internship, focusing on building and optimizing user interfaces using React, JavaScript, and CSS.
 - Learned to collaborate effectively with mentors and team members while working on real-world projects, enhancing technical and communication skills.
 - Built a strong foundation in writing clean, reusable code while adhering to industry best practices.

EDUCATION

BCA - Bachelor in Computer Application, 2020 – 2024
Nepal Kasthamandap College (TU Affiliation)

KEY SKILLS

- Frontend Development
- API Integration
- System architecture and Design
- API Development
- Unit testing and Debugging
- Roadmap Development

PROJECT

Avyaas, *E-Learning Platform* [↗](#)

Built an interactive online learning platform supporting video streaming, PDF viewing, and live classes via Zoom.

Integrated payment gateways like eSewa and Khalti for course purchases.

Implemented features for course management, live exams, and user subscriptions.

AMS, *Attendance Management System* [↗](#)

Designed frontend for a system that handles employee attendance, payroll tracking, and time-off requests.

Added live chat and real-time notifications using WebSocket integration.

Zunun, *School Management System* [↗](#)

Developed a comprehensive interface for school operations, including course management, assignments, and resource distribution.

Created user-friendly dashboards for admins, teachers, and students.

Cedep Billing System

Created the billing interface for CEDEP Institute, handling fee tracking, invoice generation, and payment status monitoring.

Ignite Nepal, *E-Commerce Website*

Developed an e-commerce frontend for electronic product sales, including product browsing, shopping cart, and eSewa payment integration.
